155/RECHENBERG

We had called the meeting with @CASTROP for the purpose of handing him the monitoring tapes from the RECHENBERG's Frankfurt address, numbers 5 through 9, covering the period 1-20 April 1966. When we handed him the papers, he gave us back a Blue GAMMA/CASTROP Nr. 50 in which he states that CATIDE has made the decision not to debrief RECHENBERG any further, particularly since their connection with RECHENBERG is at this time very loose and they do not care to intensify it again. They would very much appreciate KUBARK's judgement or conclusion as to whether their suspicion that RECHENBERG has worked for a third intelligence service is likely, or whether KUBARK's interrogation of RECHENBERG seems to have rehabilitated him in our eyes. They are also interested in our assessment of WUESTEFELD.
